Achievement: Awarded the Pradhan Mantri Rashtriya Bal Puraskar for his Innovation

No. of Participants: 600+ students, parents, professors, and principals, from different places all across India

Speaker/Presenter: Mr. Aniket Arora

Overview:

On July 29th, 2022, the Knowledge and Awareness Mapping Platform (KAMP) manifested with the first episode of its new series titled “Achievers - The Leaders of Tomorrow” This episode was conducted on Zoom Video Communications Platform and the recordings will also be aired on their youtube channel.

The main objective of KAMP is to map the science process skills and scientific attitudes of young students based on their assessment and nurture them as future scientists in the country. KAMP believes that every student is blessed with a core talent and seeks to bring out the best in them through this platform. With this, they aim to inculcate critical thinking ability within them and fill in the gaps that prevent them from achieving their highest potential.

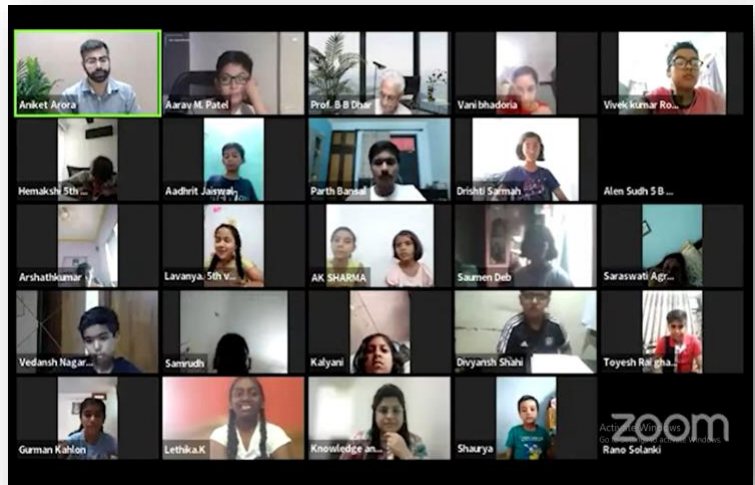

With this in mind, KAMP initiated its new series “Achievers - The Leaders of Tomorrow”. Achievers is a series that aims

to inspire students to be creative, discover their true potential, be inspired by great things in life, and help develop the nation through their unique ideas. In this series, KAMP is interviewing individuals who have achieved success using their innate talent or have done something exceptional or innovative in their life. Wherein each episode will take place on the last Friday of every month at 4 pm.

With more than 600 participants, this initial episode of the series was graced by the presence of Mr Sandeep Dwivedi, Innovation Officer, U.P. Science and Technology, Prof. B. B. Dhar, Chairman - KAMP Planning and Monitoring Committee, Dr Kanika Malik, BDG, CSIR-NIScPR, Mr Ashish Mittal, Project Director, KAMP, Ms Arika Mathur, Mr Sandeep Bansal (Father of Parth Bansal) Mrs Sapna Bansal (Mother of Parth Bansal) and our young aspirers of KAMP.

For this episode, KAMP invited a Young Achiever called Mr Parth Bansal, who invented a utility stick to help his grandmother, suffering from Parkinson's disease, walk independently. For this invention, he even received the Pradhan Mantri Rashtriya Bal Puraskar. This is the highest award in India given to children up to the age of 17. Currently, he even holds a patent for this invention.

Stick

- Integrated light
- Laser for creating the illusion
- Base for carrying and charging the battery
- Light weight and stable

Initially, the host of the episode Mr Aniket Arora asked a few questions to Mr Parth regarding his journey and later on started taking questions from the audience. Throughout the episode, the audience kept their engagement at a high level and kept feeding their curiosity. They asked several questions related to his patent and his role model, his ideology, his favourite moments, his success and failure during the project, and his family's support throughout the project.

This Interactive Series is open to all; thus, a detailed question and answer session can be found on KAMP's youtube channel under the playlist titled "Achievers". Additionally, if you wish to participate, or nominate someone you can send your entries via email to aniket@kamp.res.in or post your achievements and tag KAMP-Knowledge and Awareness Mapping Platform on Facebook or kampachievers on Instagram with the #kampachievers.
