Achievement: He was awarded the Pradhan Mantri Rashtriya Bal Puraskar for his innovation.

No. of Participants: 250+ students, parents, professors, and principals, from different places all across India

Speaker/Presenter: Mr. Aniket Arora

Overview:

On April 28th, 2022, the Knowledge and Awareness Mapping Platform (KAMP) organized the 8th episode of its series titled "Achievers - The Leaders of Tomorrow". This episode was conducted on the Zoom Video Communications Platform, and its recordings are now also available on our YouTube channel.

Kamp is an initiative and knowledge alliance of CSIR-NIScPR and NCPL. The main objective of KAMP is to map the science process skills and scientific attitudes of young students based on their assessments and nurture them as future scientists in the country. KAMP believes that every student is blessed with a core talent and seeks to bring out the best in them through this

platform. With this, they aim to inculcate critical thinking ability within them and fill in the gaps that prevent them from achieving their highest potential.

"Achievers: The Leaders of Tomorrow" is a series that aims to inspire students to be creative, discover their true potential, be inspired by great things in life, and help develop the

nation through their unique ideas. For this episode, KAMP invited a young achiever named Master Rishi Shiv Prasanna, who is also the Pradhan Mantri Rashtriya Bal Puraskar Awardee for 2023. This is the highest award in India, given to civilians up to the age of 18.

With more than 250 participants, this episode of “Achievers - The Leaders of Tomorrow” was graced by the presence of Prof. Dhar, Chairman of - the KAMP Planning and Monitoring Committee, Mr. Ashish Mittal, Member - of the KAMP Planning and Monitoring Committee; and Ms. Arika Mathur, Member - KAMP Planning and Monitoring Committee. Prof Dhar has always been supportive of the Achiever’s initiative, he loves to interact with the young Achiever as well as

other students in the audience filled with curiosity.

Rishi is a 9-year-old innovator, author, app developer, and Youtuber. He is also one of the youngest members of Mensa International, which is the oldest and most prestigious high-IQ society in the world. He joined the society at the age of 4 years and 5 months. Rishi’s IQ of 180 is far higher than the average benchmark of 85–115 and much higher than the benchmark of 130 for highly intelligent individuals.

He has bagged many certifications from various competitions with respect to coding, academics, chess, Speakathon, etc. Rishi was introduced to coding when he was 5 years old. He is a passionate coder and has developed many Android applications, such as "IQ Test App for Kids," "Countries of the World," and "CHB—Covid Help Bangalore". An astonishing part of his achievements is that Rishi was hosted by many tech giants, "IBM". IBM, India Software Labs, Samsung, and Philips. He holds the world record in the International Book of Records as the "Youngest Application Developer in 2021.

As a token of appreciation for his great achievements at such a young age, the India Book of Records certified him, and he is now in the Book of Records. Rishi is one of the youngest authors; he was only 6 years old when his first book, "Learn Vitamins With Harry Potter," was published. Rishi was only 7 years old when he authored his second book, "Elements of Earth." He is one of the youngest "YouTubers" who owns a channel. In every episode, he dives into paramount science-related topics and elucidates them comprehensively.

Overall, the interactive session with Master Rishi was an incredible one. We had quite an enthusiastic audience who were given a chance to ask direct questions to Rishi. Our audience came up with several questions related to his achievements, challenges while developing his apps, inspirations, future goals, role models, etc.

Achievers-The Leaders of Tomorrow" is a series that aims to inspire students to be creative, discover their true potential, be inspired by great things in life, and help develop the nation through their unique ideas. In this series, KAMP is interviewing individuals who have achieved success using their innate talent or have done something exceptional or innovative in their life. wherein each episode will take place on the last Friday of every month at 4 pm.

This interactive series is open to all, and a detailed question-and-answer session can be found on KAMP's Youtube channel under the playlist titled "Achievers." Additionally, if you wish to participate, or nominate someone, you can send your entries via email to aniket@kamp.res.in or post your achievements and tag KAMP-Knowledge and Awareness Mapping Platform on Facebook or on Instagram.
